## **REPORT OF THE MANAGER**

We have pleasure in presenting the unaudited Interim Financial Statements of First Capital Fixed Income Fund for the six months ended 30 September 2015.

### **Economic Review**

Sri Lanka's GDP growth rates were 4.4% and 6.7% in the first and second quarters of financial year 2015/16 compared to 0.7% and 1.9% in the previous year (source -Central Bank of Sri Lanka – CBSL). The accelerated growth was primarily driven by the services sector, which in turn was driven by wholesale and retail trade, and financial services.

Interest rates, a key driver of fixed income investment returns, were volatile during the first six months. The benchmark one year, five year, and ten year government securities yields were 6.75%, 9.05%, and 9.70% respectively at the commencement of the year (January 2015), declined to 6.18%, 8.13%, and 8.68% respectively during the first half, and increased to 7.20%, 9.65%, and 10.50% respectively by 30 September 2015.

The resulting net increases of 0.45%, 0.60%, and 0.80% reflect market expectations of rising interest rates. Interest rate expectations were impacted by significantly lower excess liquidity in the banking system: adjusted for the CBSL's term repo transactions, excess liquidity declined from Rs. 174 Bn to Rs. 62 Bn during the first half. Changes in interest rates are a key driver of returns from fixed income funds accounted for on a mark to market basis, with rising interest rates depressing fund returns and vice versa.

### **Fund Performance**

First Capital Fixed Income Fund reported net profit (after tax) of Rs. 11.6 Mn for the first half of the financial year 2015/16.

First Capital Fixed Income Fund recorded a return of 7.63 % (annualized) during the period under review. The funds under management increased to Rs. 320 Mn at the reporting date (31 March 2015 - Rs. 309 Mn). Unit holders' funds represented 300,041 units as at 30 September 2015.
